

The new year started with a large enthusiastic group of members, both male and female, eager to learn Latin line dancing with Agnes and her husband Gary. We learned some Latin numbers in the first few weeks but soon began to yearn for more contemporary and even country line dances. Agnes and Gary obliged by teaching us cha cha, jive and waltz numbers and those of us who stuck it out to the end of June enjoyed the rest of the classes - and also Agnes' good-natured ribbing of Gary, who took it all in stride!

When the new season rolled in in September, we were disappointed to learn that Natty, our favourite and long-time teacher, had moved to the west-end to be close to her son and his family. We all missed Natty but were assured that her replacement would be just as good; happily, the committee was right! Annette who took over from September to November proved to be very popular with all the line dancers, with her fun, outgoing personality and enthusiasm and we eagerly looked forward to our classes, even those few men on whom she picked from time to time - all in good spirit!

If you love line dancing, want to spend time socializing with members and get some exercise at the same time, there's nothing better than line dancing at TEGSA!
